Indie Developer *February 2022 — October 2022*

Self Employed

Created mobile Action RPG with Asp Net Core Backend.

- Own backend (Asp Net Core)
- Own DI/Reactive frameworks
- Own AI framework (behaviour tree)
- Procedural generation
- Vegetation rendering
- Own postprocessing stack

Tech-lead *December 2018 — February 2022*

GDCompany

Took part in the whole development cycle from prototyping to distribution in google play/app store.

- Synchronous Multiplayer 10k CCU+
- Steel Rage 10m+ downloads
- Developers management
- Photon (Server solution)
- Own delta compression/time sync/reliable UDP
- Cross-project libs dev
- Achieved 3 month dev cycle
- Windows server management (IIS)
- Android to iOS porting
- Interviewing new employees

Team-lead *October 2018 — December 2018*

Ambidexter

Developed a project that combines tower defense and match-3 genres. We successfully finished development on time under my leadership.

Hard Skills

- Client dev
- Server dev (api-based/realtime)
- Software architecture
- Mobile dev (Android/iOS)
- Graphics programming
- Tools programming (cli/Unity)
- GPU/CPU optimization
- Network traffic optimization
- Linux/Windows servers administration
- CI/CD pipeline development

- C#
- C++
- Java
- Rust
- HLSL/GLSL

- Unity (API + Editor)
- Godot (API + Editor)
- OGRE
- ASP Net Core
- Git
- Jenkins/TeamCity/GitHub Actions

- Developers management
- Freelancers/remote employees management
- Tasks distribution
- Planning

Soft Skills

- Teamwork
- Responsibility
- Strong problem solving skills
- Efficient communication with tech/non-tech
- Planning and prioritizing
- Passionate developer

Education

- Own ECS-like framework
- Zenject
- UniRx
- Managing a team of 6 people

Game Developer *August 2017 — October 2018*

Ambidexter

Developing PokemonGo-like GPS/AR MMORPG game using Unity for frontend and Photon Server for backend.

- Photon (Server solution)
- ARCore
- GPS
- iOS to Android porting
- Downloadable content pipeline

Game Developer (freelance) *June 2013 — August 2017*

Self Employed

Developing different games and apps, released Indie-Horror game.

- Unity (C#)
- Photoshop/Blender
- Native Android development (Java)
- Xamarin

- Higher education (bachelor degree with Honors) - National Research University of Electronic Technology (MIET)

Languages

- English - fluent
- Russian - native
